The MARBLE TV™ LINE by **ad notam**® redefines the bathroom wall. It offers a complete solution for your bathroom environment, with a fully integrated TV and invisible loudspeaker system. Recessed into the wall and leveled with the bathroom tiles, the MARBLE TV™ LINE is custom engineered for the harsh and damp bathroom environment. It is protected against humidity by a special casing, and is explicitly rated for operation in bathroom environments with the highest IP67 rating.

The MARBLE TV™ LINE presents easy 30 minutes, three steps, installation which offers frame fitting and application prior to the installation of the actual MARBLE TV™. This ensures bulk installations with minimum damage and time allocated for the installation. The unique engineering of the MARBLE TV™ LINE is designed to allow easy access to the electronic components via front-sided system architecture. This allows for any service that might be required to be remedied quickly and efficiently.

With easy integration into stone, marble, or any other plate-pattern surface, the various glass options of the MARBLE TV™ LINE offer a perfect incorporation into any existing look and interior design. The MAGIC MIRROR® MARBLE TV™ even renders the screen area completely invisible when turned off; leaving your environment with nothing but a stylish mirror. The MARBLE TV™ LINE is offered with a 17.3" Diagonal LED panel, and with a MAGIC MIRROR® panel, crystal mirror, black glass, white glass, or even a glass panel colored to your specifications. For project business, wholesale and bulk orders, **ad notam**® offers customization and tailoring for specific needs; from mirror and glass options to screen size and positions - our goal is to create the perfect MARBLE TV™ for you.
